Visteon is an equal opportunity employer committed to a culturally diverse workforce.

Our Vision

A top-three cockpit electronics player delivering a rich, connected cockpit experience for every car from luxury to entry

SYSTEM ENGINEER – KARLSRUHE

Typical Duties

- Provide strong expertise in graphics design and deep knowledge of complex graphical systems and subsystems
- Create system architecture for systems with very high graphics requirements
- Support new business wins
- Work in close cooperation with all related engineering departments (software, electrical and mechanics)

Desired Competencies/Experience

- Deep knowledge of microcontroller hardware and system design (including SoCs and graphic engines)
- Minimum 8 years of automotive background
- Excellent skills in designing complex system architectures and block diagrams
- Very strong in preparing and presenting customer presentations (PowerPoint)
- Great customer acumen and interaction
- Readiness to travel within Europe to cover customers in the Europe customer regional engineering (CRE) group
- Good network in the automotive supplier and customer world is extremely helpful
- Willingness to work in teams
- Languages: English is a must, another language (ideally German and/or French) is helpful for cooperation with European customers
