

2015 Corporate Sustainability Highlights

Visteon was in full compliance with all customer product-related environmental, health and safety requirements in 2015.

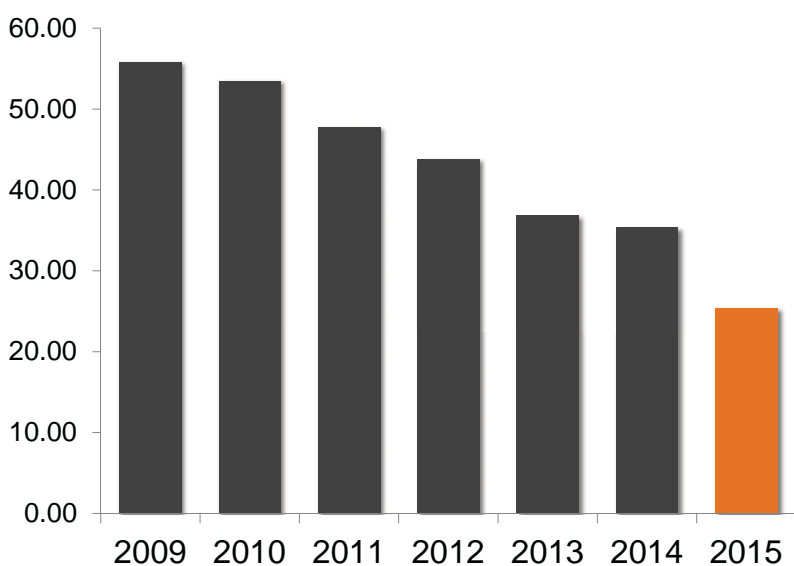

The company recorded its lowest-ever injury rates, and more than 90 percent of its facilities recorded zero lost-time accidents.

Emissions / Revenue

(Metric Tons CO₂ Equivalent / Millions of US\$)

Emissions as a percent of revenue declined for sixth consecutive year

2015 Performance vs. Goals

- 0.03 Lost-Time Case Rate (LTCR)**
Goal 0.10
 Fourth consecutive year of all-time low LTCR for the company, placing it in the top percentile of all manufacturing companies regardless of industry
- 1.37 Severity Rate**
Goal 2.5
 All-time low severity rate; maintains position in top percentile of all manufacturing companies regardless of industry
- 0.05 Recordable Injury Rate**
Goal 0.25
 Met stretch target and continue to strive as world-class performer
- 0 Work Related Fatalities**
Goal 0
 More than 90% of all facilities did not register a lost-time injury case in 2015
- 10.6% Waste Efficiency Improvement**
Goal 10%
 Exceeded target
- 49% Reduction in CO₂ Emissions**
Goal 20% (2012 baseline)
 Exceeded 2012 three-year target of a 20% reduction in normalized emissions, more than doubling the goal
- 100% Compliant with Customer Product-Related EHS Requirements**
- On Track to Comply with All Customer and Government-Related Working Conditions**

Visteon is driving to be the world's leading provider of cockpit electronics products for global automakers. While pursuing this goal, we are equally committed to upholding the highest standards of corporate responsibility across the 18 countries where we operate.
