8. SSA Admin Training
9. Technical Support
Visteon Supplier Portal – General Introduction:

• The following guide is designed to help suppliers learn how to register a new company, a supplier security administrator (SSA), obtain an ID for an existing company, reset a forgotten ID or password and access the supplier portal.

• If a Supplier contact encounters issues using the Self-Service Reset tool for PW’s and forgotten CDS ID’s, then they should call Visteon Service Desk for assistance.

• If a Supplier contact is waiting for approval on a CDS ID to access Visteon applications, they should contact their company’s SSA for approval status on their CDS ID request. Approvals for CDS IDs are controlled by the company’s SSA and not Visteon.
System requirements for Remote Access:

Web Browser:
• Any web browser (Internet Explorer, Chrome, Firefox etc.)

Remote access information is available at:
• [https://www.visteon.com/company/suppliers/remote-access-to-visteon/](https://www.visteon.com/company/suppliers/remote-access-to-visteon/)
To Register a New Company in Visteon Portal
To Register a New Company

Visit Visteon’s public website [http://visteon.com/index.html](http://visteon.com/index.html) - Select **Company** from the top menu, then **Suppliers** from the submenu.
To Register a New Company

From the options choose Supplier portal

Resources for Visteon suppliers

Our suppliers are best-in-class, continually driving excellence and innovation. If you’re a current supplier to Visteon, use the tools and resources below, and contact your purchasing representative with any questions.

- Supplier Portal
- Sterling Web Forms
- DataXchange
- Packaging Information Collection System (PICS)

Supplier Guidelines for Accessing Supplier Portal
Remote Access to Visteon

There are three methods to access the Visteon network.

1. Suppliers and hourly employees who need to access web applications should go to Myportal-External from any web browser with an internet connection. Access the complete training guide for step-by-step instructions on how to set up and use this tool.

2. Agency associates who need to access the Visteon network, including the intranet, applications, server or network resource, should use the FortiClient tool for Windows or Linux. To get started, download the tool for Windows or Linux and then follow the installation instructions.

3. Full-time employees should use ZPA or FortiClient from their Visteon computers. Usage information is shared during onboarding.

To request a CDSID or get password help, go to https://remote.visteon.com.
To Register a New Company

Select ‘Get CDS ID or Password” to launch the supplier access system.
To Register a New Company

Select “Supplier CDS ID Request” to launch the access request form.
To Register a New Company

Select “Register New Company” and follow the instructions on the resulting page.
To register a new company or Supplier Security Administrator (SSA), complete the required registration:

- **NOTE:** The “Proposed Visteon Approver” should be your main contact at Visteon.

- Be sure to review the terms and conditions associated with using the supplier portal.

- If you agree to the terms and conditions, select “Submit” to send your registration request.

- You will receive an e-mail notification about the status of your request.

- Any questions should be directed to vspsecur@visteon.com

Once your company name got registered you can request for User ID and Password
To Obtain User ID (CDS ID) and Password for Existing Company
To Obtain User ID (CDS ID) and Password

Visit Visteon’s public website [http://visteon.com/index.html](http://visteon.com/index.html) - Select **Company** from the top menu, then **Suppliers** from the submenu.
To Obtain User ID (CDS ID) and Password

From the options choose Supplier portal

Supplier Guidelines for Accessing Supplier Portal
Remote Access to Visteon

There are three methods to access the Visteon network.

1. Suppliers and hourly employees who need to access web applications should go to [Myportal-External](#) from any web browser with an internet connection. Access the complete training guide for step-by-step instructions on how to set up and use this tool.

2. Agency associates who need to access the Visteon network, including the intranet, applications, server or network resource, should use the FortiClient tool for Windows or Linux. To get started, download the tool for [Windows](#) or [Linux](#) and then follow the installation instructions.

3. Full-time employees should use ZPA or FortiClient from their Visteon computers. Usage information is shared during onboarding.

To request a CDSID or get password help, go to [https://remote.visteon.com](https://remote.visteon.com).
If you are an existing user and have an active Visteon account and password: In “Enter your Full e-mail address”, enter your CDSID followed by @visteon.com. Example, if your CDSID is jdoe, you will enter jdoe@visteon.com. Click on “Next” button.

If you are an existing user and have completed the reset process to receive a temporary password from Visteon: go to “Supplier Portal - Login Process (Existing User with Temporary Password)”

If you are a new user and have your initial temporary password from Visteon: go to “Supplier Portal - Login Process (New User with Temporary Password)”
Supplier Portal - Login Process

Enter your password

Enter your CDSID and password again on the Web Single Login screen (WSL)
Once logged in to the portal, use the menu on the left to access documents and applications.

To request a CDSID or get password help, go to https://remote.visteon.com.
Click on Get CDS ID or Password link
Supplier Portal – Login Process

Select “Set Permanent Password” to set the password
On this screen: enter the CDS-ID, temporary password, enter your new/confirm password and click “OK”

Upon receiving a successful message, go back to https://remote.Visteon.com and login by providing CDSID and password.

If you receive an Invalid CDS or password message: hit the “back” button, wait a minute and attempt the password change again.

If you are notified that your account is active, please wait a minute and try again. If the message repeats, you may need to repeat the password reset process.

Important: Observe the network password rules when choosing a new password value.

Network Password RULES:
- Must be at least 8 characters long and should not exceed 20 characters in length
- Must contain characters from at least three of the following four categories:
  - English uppercase characters (A - Z)
  - English lowercase characters (a - z)
  - Base 10 digits (0 - 9)
  - Non-alphanumeric (! or %)
- Cannot contain SPACES or BLANKS (ex: my new password)
- Cannot be the same as any of your previous passwords
- 5 invalid attempts will lock your account

If you have questions or comments concerning your Network password, please contact the Corporate Help Desk.
Once logged in to the portal, use the menu on the left to access documents and applications

Change Temporary Network Password

You may change your Network password by entering your existing account information and new password into the form below:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CDS-ID</td>
<td></td>
</tr>
<tr>
<td>Old Password</td>
<td></td>
</tr>
<tr>
<td>New Password</td>
<td></td>
</tr>
<tr>
<td>Confirm New Password</td>
<td></td>
</tr>
</tbody>
</table>

Network Password RULES -

• Must be at least 8 characters long and should not exceed 20 characters in length
• Must contain characters from at least three of the following four categories:
  ○ English uppercase characters (A - Z)
  ○ English lowercase characters (a - z)
  ○ Base 10 digits (0 - 9)
  ○ Non-alphanumeric (! or %)
• Cannot contain SPACES or BLANKS (ex: my new password)
• Cannot be the same as any of your previous passwords
• 5 invalid attempts will lock your account

Visteon If you have questions or comments concerning your Network password, please contact the Corporate Help Desk.
The first time you enter the Portal, you will need to register for self-service password reset. Click on “Continue to Registration”.

On the next page: Enter a PIN, a PIN hint if you choose, an e-mail address that would receive password reset information, and any other data you wish. Click “Submit” when done.

On the next page as instructed: Click on the “door” to logout or close the browser. Please re-enter the portal using your ID and password.

Note: Setting the PIN is very important the first time you log in as it completes registration and allows you to successfully reset your password yourself through the SSRT tool.
Once logged in to the portal, use the menu on the left to access documents and applications
Obtaining a Forgotten User ID (CDS ID)
Obtaining a Forgotten User ID (CDS ID)

Supplier Guidelines for Accessing Supplier Portal
Resetting Your Network Password

Remote Access to Visteon

There are three methods to access the Visteon network.

1. Suppliers and hourly employees who need to access web applications should go to Myportal-External from any web browser with an internet connection. Access the complete training guide for step-by-step instructions on how to set up and use this tool.

2. Agency associates who need to access the Visteon network, including the intranet, applications, server or network resource, should use the FortiClient tool for Windows or Linux. To get started, download the tool for Windows or Linux and then follow the installation instructions.

3. Full-time employees should use ZPA or FortiClient from their Visteon computers. Usage information is shared during onboarding.

To request a CDSID or get password help, go to https://remote.visteon.com.
Resetting Your Network Password

Click on Get CDS ID or Password link
Buttons used in order to complete this process:

- Click **Forgot Your Password** to initiate a password reset and get an Access Code

- Click **Enter Password Access Code** after you receive your Access Code to set your Password to a Temporary value
Resetting Your Network Password

• Enter your Visteon CDS ID and select Submit to continue.

• An e-mail message will be sent to the address on file with the CDS ID containing an Access Code

• Important: The Access Code you receive is only valid for 30 minutes
Resetting Your Network Password

• Return to the FortiClient menu and click “Enter Password Access Code”

• Upon receiving the email containing the access code:
  1. Enter it on the Access Code screen
  2. Click “Submit”
  3. Select the Network Login Account box and click “Submit”.

- The next screen will provide important instructions regarding your temporary password value. Please allow a few minutes for the system to recognize your temporary password before using the set permanent password function.

- Access codes are valid for 30 minutes.

- Note: You must be registered in SSRT to use this function.
SSA Admin Training
SSA Admin Training – Reviewing Access Requests

Reviewing Access Requests:

1. On the main Portal screen, select the “SSA Admin” menu item on the left side to view your options.

2. Select “Pending Requests”. This will take you to the Visteon Supplier Access System.
SSA Admin Training – Reviewing Access Requests (cont.)

3. Review pending requests and “Approve” or “Reject” as appropriate. The user will receive an e-mail with the results.

Warning flags are provided for:
- email already exists – please review carefully to validate if user already has a CDSID or accuracy of submitted email address.
- Invalid email domain – If you get a user with an invalid email domain, you can add that domain (if appropriate) and then approve the user request.

4. Approved, Rejected, Completed, and Expired requests can also be reviewed as desired.
Managing SSAs and Email Domains:

1. Select “SSA Admin” menu item to view your options.

2. Select “SSA(s) and Domains”. This will take you to the Visteon Supplier Access System.
3. Click “Update” for appropriate company to be managed

Managing SSA’s:
• SSAs can be deleted by clicking “Delete”
• SSAs can be added by clicking “Add SSA”, entering new SSA CDSID, and clicking “Submit”

Managing Email Domains:
• Domains can be deleted by clicking “Delete”
• Domains can be added by clicking “Add Domain”, entering domain name, and clicking “Submit”

Move Users to New Reporting Name
To move a user to a new reporting name, send an e-mail to vspsecur@visteon.com with the details of the move you wish to make.
Technical Support
